

## January Message - Be Safe While Gaming

Some of you may have got devices such as phones tablets, xbox or PlayStation for Christmas. There is something important that you should know about playing games on these devices.

On Xbox and PlayStation there is a system that if you send a rude or bad message you will get banned for 10 days. If someone that you don't know sends you a message then you should tell an adult. The adult can block them.

Remember Techno's rules:

Always be kind online.

If unsure always show and tell an adult.
