NSPCC

The NSPCC has partnered with O2 to provide and online safety helpline for parents. Contact them on: 08008005000

Our Techno Poem

Listen up to our big bro
He's a small Dino and his name's Techno.
He has four rules that you need to know
So come on, off we go!

First things first
Be kind online.
Don't bully anyone
That's not fine.

If I see something
And I'm unsure.
Always show and tell an adult
They'll know the cure.

If I talk to someone
When I'm online.
I don't share private things
They're just mine.

If I see a pop up
And it won't go away.
Show and tell an adult
They'll help me every day.

Thank you Techno
For teaching me these rules.
I'll stay safe online
And won't be a fool.

What do you do online at home?

We asked some children in our school what they are doing online that their parents mightn't know about.
Here are their answers:

Games/Gaming:
Gaming online with strangers.
Downloading games for free.

Videos:
Watching unfiltered YouTube and Netflix videos.

Social media:
Using overage websites and social media sites.
Sending pictures via social media.
Seeing scam pop up adverts.

Did you know?
You can filter Netflix and video sites to be child friendly!

Keep it private:
You can have certain privacy settings so your children cannot add strangers.

What we are learning in school.
Techno's Advice

In school our Online Safety Mascot Techno has four rules to help to keep us safe. These rules are very important so follow them carefully.

Commercial
Never open any pop-up windows or marketing emails. Always tell an adult.

Conduct
Always be kind online no matter what way you contact anyone.

Contact
NEVER talk to strangers online or give them your details.

Content
If unsure always tell and show an adult.

It's Time to Talk

Do you have an internet safety plan at home?

Here are our top five suggestions for rules that you could put in place for your child's safety.

1. Do you know who your child is playing with online? If not, ask them and make sure to go through their contacts or friend lists every now and then.

2. What apps is your child downloading? Make sure you know what age rating the app is for. Explain why they can or can't download the app.

3. Are you using child filters? Go into settings and download child filters onto your device.

4. Do you know how long your child is using their device each day? Set a time limit for how long your child is allowed to use their device on a daily basis.

5. Does your child know what to do if they are upset or confused online? Talk to them and explain that they should ALWAYS SHOW AND TELL AN ADULT!

Stay Safe!
